

N. B. There are many other documents which I thought necessary to be inserted in the journals at the appropriate place from the fact of reference being made to them, which documents I have searched diligently for and have spared no reasonable exertion to obtain possession of—they are gone—out of reach—cannot be found—and are probably extinct. In consequence the journals will appear in some parts imperfect.

The journal of 13th March as herein printed, has been taken from a published journal of that date in the "Democrat," the original journal not being found by me.

N. C. RAYMOND,
Secretary of Senate, 2nd Legislature.
